

CO-E1 ENADA Launches Member Rewards Program

Co-E1 is helping people maintain their health and wellness by offering wholesale prices and making it possible for members to earn money for sharing the benefits of Co-E1 with friends, family, and associates.

([PRWEB](#)) February 27, 2014 -- Co-E1 NADH, a leading provider of all natural energy supplements, is pleased to announce the Co-E1 Rewards program. The Co-E1 Rewards program is a unique opportunity extended to everyone and is free to sign up for.

Co-E1 is helping people maintain their health and wellness by offering wholesale prices and making it possible for members to earn money for sharing the benefits of Co-E1 with friends, family, and associates. Once signed up, the member will receive a personalized link to share over social media, email, personal websites, or anywhere the member chooses. Then, when a visitor clicks on the personalized link, the visitor will be connected to that member's account so that any time a purchase is made from the Co-E1 website; the member will receive \$4 for every box purchased by the referral.

That is how it works, if three boxes are purchased by the referral, the member would get \$12. If they buy 5 boxes, members get \$20. If they buy 50 boxes, members get \$200. Not only is money earned when people buy from your link, they can also get paid when members' referrals refer other people. It's like this: Let's say Person A is referred. When Person A buys, \$4 is rewarded for every box Person A purchases; but you can suggest to Person A that they also sign up for Co-E1 Rewards and get paid.

When Person A shares their link with Person B and Person B purchases, Person A gets \$4 for every box Person B buys. But since you referred Person A in the first place, you also get \$3 for every box Person B buys. And this goes for two more levels. You'd get \$2 for every box Person C (Level 3 referral) buys and \$1 for every box Person D (Level 4 referral) buys.

Payouts are made via PayPal every month to all participants who have at least \$50 pending payouts accrued. If less than \$50 in payouts pending, the money remains on the account until it exceeds \$50. Once it's more than \$50, payouts will be on the 1st of the next calendar month.

“We are giving our passionate customers a portal to be rewarded for their word of mouth marketing that brings us business,” says COE Jonas Mcgilroy. “Getting the health benefits from a product makes people want to share what works for them, and we believe that through this platform we are entering the next phase of customer loyalty with the ultimate goal of rewarding our faithful customers for their support.”

About Co-E1 NADH

Co-E1 is the chief distributor of cutting edge nutraceutical and NADH supplements. The company's primary operating principal is to provide the consumer with clinically tested and proven innovative products of the highest quality with specific health benefits.
